Professional interests

As a professional consultant I combine my theoretical background in business information systems, systems development, and database systems modelling, with my interest and understanding of today's business needs. As a consultant I am responsive to customer needs while at the same time I have the integrity and knowledge to state my mind when it comes to architecting economically viable solutions to customers. My professional interests include:

- Database modelling and design for fault resistant database implementation.
- Requirements management and elicitation for capturing and meeting system goals and business needs.
- Information systems engineering and methods for systems development including Rational Unified Process, XP, and SSADM.
- Analysis of computer and software systems.
- System architecting and administration.
- Evaluation of business ideas for investors.
- Material and Resource Planning (MRP) and Supply Chain Management (SCM) systems.
- Search Engine Optimization strategies, techniques and implementation (since 1997).

Education

1999 - 2000 Master of Science in Computer Science – New Generation Representations, Department of Computer Science, University of Skövde, Sweden

1997 - 1998 Military Service as Weather Assistant, 11th Helicopter Division, Berga, Sweden (Mandatory Service).

1999 Bachelor of Science in Computer Science with Specialization in Business Information Systems, Department of Computer Science, University of Skövde, Sweden.

1995 High School, Vallentuna Gymnasium, Natural Sciences Program

Employment

- 2006 - Co-founder and CEO of Västgöta-Data AB together with Andreas Hansson, Nicklas Bergfeldt and senior board members, Stig Martín, co-founder and member of the board of Softronic AB, and Robert Reh binder, CEO of Svenskt Rekonstruktionskapital AB and chairman of Ramnäs Bruk AB.
- 2005 - Co-founder of Västgöta-Data KB along with Andreas Hansson, Nicklas Bergfeldt, and Robert Reh binder. Västgöta-Data offers software development and high-end IT-services.
- 2003 - 2005 Ph.D-student, School of Humanities and Informatics, University of Skövde, Sweden
